OUTPATIENT LED EXAMINATION LIGHT

The next generation of examination lighting has arrived.

Outpatient LED is the perfect low maintenance, top-performing light for examination applications in the hospital, physician's office and veterinary field.

Designed for patient comfort and ease of use

- LED sources provide virtually heat-free light for patient comfort
- High quality light for accurate color rendition
- Designed to reduce shadows on the examination area
- Modularity for ease of installation and assembly

Enhanced performance

- Increased illuminance to 90,000 lux (8361 fc) at 24" (61 cm)
- CRI (Color Rendering Index) > 95
- High R9 > 87, to accurately render skin tones
- Anti-microbial paint to inhibit the growth of microbes
- Lower profile to reduce space impact

Lower cost of ownership

- LED illumination offers 10x (or 20,000 hours average) the operational life of traditional halogen solutions
- Provides a 75% energy savings over current halogen option
- Smooth finish aids routine cleaning
- Reduced maintenance
